

Dellner appoints new Managing Director of Dellner India

Sathya Kumar has been appointed as new Managing Director of Dellner India as of 12 December 2022.

Sathya Kumar holds a BA (Mechanical) from Bharat Engineering College in Chennai, India as well as an MA (Production Planning & Scheduling) from the University of Toronto, Canada. In 2006 he was awarded a Diploma in Project Management from Humber College, Canada. Four years later he completed the Executive General Management Program from IIM, Bangalore, India.

With almost 28 years of professional production and management experience, Sathya Kumar brings his strong skill-set and the excellent reputation for high performance and team leadership.

He started his career in 1993 as an engineer at Caterpillar/Hindustan Motors Ltd.

In 2008 Sathya entered the transport industry and from that time held managerial positions at different companies like Litens, Valeo Clutch, Alstom or Bombardier.

Prior joining Dellner, he worked as Executive Vice President at Mobility Business (Texmaco- JV).

Commenting on the appointment, President & CEO, Anders Lindberg says, *"I am very pleased to announce and welcome Sathya Kumar to Dellner. He has long experience within the rail industry and working in global companies with a strong brand and good reputation."*

Sathya Kumar: *"I am excited to be part of the Dellner family which has a powerful presence in India and globally as a railway supplier. Looking into the market and the new product that will be introduced in India, I see strong growth and market domination in this region. I look forward to working with you and ensuring we achieve the company's goals and objectives through teamwork."*

Sathya's broad experience in production management and rail industry will provide valuable input into managing one of the Dellner's biggest production sites in the world, where couplers and gangways are both manufactured.

With full responsibility for the leadership and development of Dellner business, Sathya will play a key role in meeting the company's growth targets on maintaining the leading position in Train Connection Systems.
