# Fredrik Nordström appointed Business Unit Couplers Vice President

**Dellner, an industry leader in Train Connection Systems, has decided to appoint Fredrik Nordström as Vice President for Business Unit Couplers, effective from 1 January 2025.**

Fredrik has 35 years' work experience within the Railway segment in areas such as aftermarket, project management, production, engineering, bids and sales, including in the following roles: Head of BU Nordics Regional/Intercity and Deputy Managing Director for Bombardier Transportation. He also worked at Dellner Couplers

between 2020–2023 as Corporate Business Development Director. His most recent position was CMO, Head of Sales & Commercial at Euromaint Rail AB.

“I’m really looking forward to being back at Dellner as VP for BU Couplers. My background in the railway segment and my leadership style will inform my strategy as we continue our journey as a competitive market leader in train coupling systems,” says Fredrik Nordström, incoming VP for BU Couplers.

Some words from Fredric Håkansson, CEO & President of Dellner: “I’m thrilled to announce and welcome Fredrik Nordström back to Dellner, now taking on the role of VP for Business Unit Couplers. With his proven track record and extensive network in the railway industry, Fredrik has been a central figure in driving the acquisition of CAF Miira during his time at Dellner as Corporate Development Director. His strong values, exceptional leadership and unwavering passion for our products give me great confidence in his ability to continue driving growth and innovation with his team at BU Couplers. I look forward to the exciting journey ahead with Fredrik leading the way”.
